

# Story Y03: Sorteervfunctie Project.

I want to be able to sort the Work Order overview table by date.

Wireframes:

The wireframe shows a page layout with two navigation buttons at the top: 'Home' and 'Projects'. Below these is the title 'Project Overview'. A table follows, consisting of a 'Table Head' and four data rows labeled 'Table Row 1' through 'Table Row 4'. At the bottom left of the table area is a 'Sort' button.

Table Head
Table Row 1
Table Row 2
Table Row 3
Table Row 4

Sort

Acceptance Criteria:

- From the Project Overview page I should be able to click a button to sort the information
- After submitting the form I should be able to see the same information except in a sorted table.

Technical Criteria:

- The sort button should sort the data ascending or descending by date depending on which option was selected.
