Edit user

Userid 4

Name:	<input type="text" value="Janssens"/>	Team:	<div><div>Beta</div><div>Alpha</div><div>Beta</div><div>Gamma</div><div>Delta</div><div>Epsilon</div></div>
First Name:	<input type="text" value="Jan"/>		
Email:	<input type="text" value="a.b@abc.com"/>		
Role:	<div><div>Select V</div><div>Employee</div><div>Team Leader</div><div>Director</div></div>		

Update

Acceptance Criteria:

- From the User Overview Page, I should be able to move to an editing form.
- In the form there is an input field for every data type
- The data I need to edit is Name, First Name, Email, Role, Team
- The Role should be Director, Team Leader, Employee
- The Team should be Alpha, Beta, Gamma, Delta or Epsilon
- I should be able to submit the form to process the changes

Technical Criteria:

- The form should automatically input the current information
